DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to a method for printing on a surface including curing by ultraviolet ink, classified in class 101, subclass 424.1.
 - II. Claims 12-18, drawn to a method for printing on a surface where the surface is a non-flat sports-related object, classified in class 101, subclass 44
 - III. Claims 19-20, drawn to a method for printing a picture on a surface by depositing a plurality of ink droplets of a first and second size, classified in class 347, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as printing on flat objects such as paper or fabric. See MPEP § 806.05(d).
3. Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as printing articles with a uniform drop size. See MPEP § 806.05(d).

Art Unit: 2854

4. Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as printing non-sports related objects. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, the search for Group I is not required for Group III and the search for Group II is not required for Group III, restriction for examination purposes as indicated is proper.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dan Colilla whose telephone number is (571)272-2157. The examiner can normally be reached Mon.-Thur. between 7:30 am and 6:00 pm. Faxes regarding this application can be sent to (703)872 - 9306.
